PHX-150

DRY ICE CLEANING SYSTEM

The Phoenix PHX-150 delivers powerful dry ice blasting capabilities in an economical, highly mobile unit.

- Convenient front hook-up for quick air hose connection
- Safety interlocks and guards prevent accidental contact with moving parts
- 14" wide body navigates easily through doorways and into tight spaces
- Reinforced stainless steel construction and durable molded castors
- Quick release airlock for fast cleaning or inspection
- Customer Support available 24 hours, 7 days a week

The PHX-150 utilizes rice-sized dry ice pellets as the blast media. Dry ice in this form is readily available and because much of today's used CO₂ is "recaptured" through industrial processing, this system becomes one of the most economical and environmentally safe cleaning methods available.

PHX-150

DRY ICE CLEANING SYSTEM

SPECIFICATIONS

Dimensions 14" x 18.5" x 45.75" (W x L x H)
(36cm x 43cm x 116cm)

Dry Weight 140 lbs. (63kg)

Hopper Capacity Over 100 lbs. (45.5kg) of pellets

Ice Consumption Range 0.5lbs - 7 lbs
(0.23 kg - 3.2 kg)/min

Supply Air Pressure Range 70 psi - 125 psi
(4.8 - 8.6 bar)

Air Consumption Range 100 CFM - 250 CFM

Blast Pressure Range 50 psi - 125 psi
(2.8 - 8.6 bar)

Inlet Air Temperature 140°F (60°C) maximum

Inlet Air Connection 1" FNPT

● USER-FRIENDLY

Convenient front hook-up for quick air hose connection
Single blast hose for easier maneuverability
Angled control panel provides easy viewing and accessibility
Simple to understand control components
Convenient design allows for fast pellet loading
Large hopper capacity eliminates frequent refilling

● SAFETY CONSCIOUS

Safety interlocks and guards prevent accidental contact with moving parts
100% pneumatic operation eliminates electrical shock hazards

● PORTABILITY

14" wide body easily fits through doorways and tight spaces
Large rubber wheels negotiate rough surfaces
Lightweight- only 140lbs dry

● RUGGED

Reinforced stainless steel construction
Durable, molded rubber castors
Operation in any weather or environment

● LOW-MAINTENANCE

Built-in separator/filter for added protection
Quick release airlock for fast cleaning or inspection
Easy access to components
Minimal downtime for periodic maintenance

● 24 HR CUSTOMER SUPPORT

Technical assistance available 24 hours a day, 7 days a week, year round
Equipment parts also available
